DETAILED ACTION

This office action is responsive to amendment filed on 02/03/04.

Response to Amendment

The examiner has acknowledged the amended claims 1 – 4, 6 – 10, 12 – 17, 19 – 24, and the submission of new claims 26 – 29.

Response to Arguments

Applicant's arguments with respect to claims 1 – 29 have been considered but are moot in view of the new ground(s) of rejection.

Claim Objections

The numbering of **newly added claims 25 - 29** is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

In this case, there are **two independent claims 25** in this application. It is suggested to renumber the added claims accordingly.

Claims 26 – 28 are objected to because of the following informalities: It is suggested to insert " said " between wherein and creating (claim 16, line 1); between

wherein and sending (claim 27, line 1); and between wherein and accessing (claim 28, line 1). Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 – 29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claims 1, 8, 14, and 21 – 25, the term " non-object oriented management information database " (claim 1, lines 3 – 4, 6, and 9); (claim 8, lines 3 and 6); (claim 14, lines 3 – 4, 5 - 6, and 8); (claim 21, lines 3 – 4, and 6); (claim 22, lines 5, 7, and 10); (claim 23, lines 5 and 8); (claim 24, lines 3, 5, and 8); (claim 25, lines 5, 9, and 11) is not described in the specification. It has not been disclosed how the limitations that contain such term are taken place. Therefore, one skilled in the art would not know how to make and/or use the invention.

Claims 2 – 7, 9 – 13, 15 – 20, and 26 – 29 are necessarily rejected as being dependent upon the rejection of claims 1, 8, 14, and 25.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
